23) The mal el Nangangwa prays that the entire cost may be met by the govt & mal el in equal proportions & that, in order to meet their share of the cost, a loan to that extent VG Rs 53,722 may be granted

24) The president of the mal el and the D C Mpwapwa state are not in favour of a loan being granted to the mal el, ~~they, was~~ as proposed by them they, instead, propose to carry out works to the extent of Rs 60,000/-, the same being met by the mal el and the govt in equal proportions The mal share of the cost is proposed to be met out the closing balance of the mlt

25) In this connection, it may be stated that the financial position of the mal el according to the sanctioned budget is satisfactory, as seen from the marginally noted figures

Rs
× Receipts → 116,359
Exp → 90,727
closing bla → 25,632

The proposal of the president as supported by the D C is that the mal share of the cost of Rs 30,000/- be met out of the closing balance but the closing balance of the mlt is Rs 25,632/- only Hence

It is not clear how the balance of Rs 5,000/- still required would be made up.

(b) In the above circumstances, 1) both the estimates one for Rs 31,120/- for extensive portion drainage work and the other for Rs 76,325/- for the Town drainage work may be sanctioned, the cost being met by the pvt & the Govt in equal proportions,

2) the Govt may be asked to take up in the first instance the extensive portion work costing Rs 31,120/- and to execute the town portion work after the former is completed

B

and 3) a grant of Rs 15,560/- may be given from out of the drainage grant for 44-45 towards the pvt share of this cost of the extensive portion, the balance being agreed to be met by the Govt out of the closing balance of the Govt

30) They have been scrutinized & found to be in order. The estimate for Rs 33,230 has been scrutinized & corrected to Rs 31,120/- by the Chief Engr & Irrigation.

31) For the present, the estimate amtg to Rs 31,120/- may be sanctioned, the expenditure being met by the Ranjangaon Tahsil & the Govt on equal proportion. The first share would amount to Rs 15560/- The same can be met out of the Drainage grant for the current year

The report of the D C Nyhe dt shows that the Navgaon Tenants are agreable to take the entire work once for all and to pay their share of the cost amounting to Rs 53,723/= from out of them from Rs Hamer, the

question of granting a loan to the Navyangad Town mt el in this behalf does not arise at all

43) In the circumstances, grants for orders are —

A | 1) Sanction to an estimate for Rs 31,120/- for ~~the~~ one portion of the scheme relating to the Extens

B | 2) Sanction to an estimate for Rs 76,325/- for the Town portion of the scheme.

44) In this connection, it may be stated that a sum of ~~Rs~~ Rs 1,05,233 is still available out of the Drainage grant for 44-45

therefore be sanctioned for a total amount of Rs 107,445

47) The Nanganguq Committee have agreed to meet their share amounting to Rs 53,725/- without resorting to borrowing. They have plenty of money in hand

48) The first share can be met in full to the extent of Rs 53725/ this year alone, as a sum of Rs 105233 is still available out of the total drainage grant of Rs two lakhs in the State Budget for 44-45. Hence the scheme may be sanctioned in full and the Chief Engineer for Roads & Buildings may be directed to arrange to take up the work without any delay

Sir,

Re. Drainage scheme of Nanjangud Town Municipality

In forwarding herewith the file of papers together with the plans and estimates and extract of the resolution of the Municipal Council received with letter No H C 66/41 dated 10th March 1944 from the President, Nanjangud Town Municipality, regarding the above, I have the honour to state that the Sanitary Engineer, has prepared two estimates, one for Rs 82,865/- and the other for Rs 33,230/- to complete the remaining portions of the Drainage scheme of Nanjangud Town The Municipal Council have resolved at their meeting held on 26-2-1944 to take up the above two works immediately, the cost of the works being met by Government and the Municipal Council in equal proportions The total amount of the two estimates comes up to (Rs 82,865 plus Rs 33,230) = Rs. 1,16,095/- and the moiety of quota to be contributed by the Municipality would, therefore, come to Rs 58,047/ The Municipal Council have requested that the Government may be pleased to sanction to them the grant of a loan equal to the above amount to enable them to pay their quota, in addition to an equal amount of Government grant to the Municipality from Town Improvement Grants

The President of the Municipality has opined that there is no necessity for the Municipal Council to obtain a loan from Government and has stated that, in the first instance, works to

an extent of Rs. 60,000/- out of the entire estimated cost may be undertaken by the Municipal Council, the cost thereof being met by Government and Municipality in equal proportions. He proposes to pay the Municipal quota of Rs. 30,000/- out of the closing balance of Rs 58,462/- which is reported to be at the credit of the Municipality on 1st March 1944

I agree with the President and request you to be so good as to obtain sanction of Government for taking up the works at a cost of Rs. 60,000/- for the present, and for a Town Improvement Grant of Rs 30,000/- to the Municipality, the Municipal quota of Rs 30,000/- being ordered to be paid out of the Closing Balance of the Municipality.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,

Subject: Drainage Scheme at Nanjangud

With reference to your letter No L 8273 dated 20th February 1945 directing to intimate whether the Nanjangud Town Municipal Council are agreeable to undertake the entire drainage scheme at an estimated cost of Rs 1,07,445/- and to meet their moiety of the total cost viz Rs 53,723/- etc , I have the honour to state as follows:

A copy of your letter under advertance had been forwarded to the President, Municipal Council, Nanjangud to intimate the views of the Municipal Council on the proposals now under consideration In reply, he has stated in his letter No H C 107/44-45 dated 2nd instant (Copy enclosed) that the Municipal Council have at their meeting held on the 28th February 1945 resolved agreeing to work out for the entire scheme which is estimated to cost Rs 1,07,445/- and to contribute the entire sum of Rs 53,723/- by withdrawing the amount of Rs.45,000/- from their S B Account No 1703 and to meet the balance of Rs.8,723/- from the closing balance of the Municipal funds for the current year As the required amount is readily available, the Municipal Council do not like to obtain any loan from Government to execure this work The financial position of this Municipality is sound and it can afford to meet this expenditure without neglecting other improvement works In these circumstances, I request you kindly to obtain sanction of Government for undertaking the entire scheme at a total cost of Rs.1,07,445/- half the expenditure being met by Government.

All the enclosures as per list appended herewith are forwarded for reference and kind return
